SMART RADIO SERIES

CODAN
RADIO COMMUNICATIONS

A new standard in HF radio

CODAN ENVOY™ — THE SMART RADIO

The Codan Envoy smart radio series are the most intuitive, reliable and advanced radios we've ever built. Envoy's clear and dependable High Frequency (HF) voice and data communications means you have the confidence to communicate anywhere and anytime without the need for existing infrastructure.

A true software-defined radio (SDR), Envoy delivers new capabilities to the radio through software upgrades so you'll always have access to tomorrow's features today. No matter what your communication scenario, Codan has you covered with Envoy's scalable mobile and base station solutions — all in an affordable platform.

With Ethernet and USB connectivity, a large high-resolution colour display, and multi-language user interface — combined with legendary Codan performance, reliability and support — the Envoy smart radio is the new standard for HF communications.

Mobile System

The Envoy is quick and easy to install in a vehicle, with a space-saving design that enables you to conveniently mount the handset and RF unit separately. Envoy's large colour screen and smart intuitive interface gives you the optimal viewing and user experience when on the move. When combined with Codan's auto-tuning antenna solution for the best coverage and fast tuning, the Envoy is the ultimate mobile HF solution.

Base System

Envoy is the only HF base system with a purpose-built smart desktop console that gives you maximum operational flexibility and full remote control capability of all HF radios on your network. With capability for plug-in accessories, the Envoy is the smart choice for your communications base.

SOFTWARE-DEFINED RADIO

Envoy's software-defined architecture enables you to download and upgrade new capabilities through software to ensure your investment is future-proof

SMART INTERFACE

With an icon-based full-colour user interface, USB SmartLoader, and intuitive programming, Envoy is easy to operate and minimises the need for training

IP CAPABLE

Envoy is the only IP capable and wireless-network interoperable HF radio of its kind, so you can remotely program an Envoy from your desktop — from anywhere in the world

MULTI-LANGUAGE SUPPORT

With the ability to support an unlimited number of additional languages, Envoy provides you with a truly customisable communications solution no matter where you operate

EMBEDDED SOFTWARE MODEM

Through the fully embedded software modem, Envoy provides advanced internal features such as high-speed data, email, and chat messaging for a compact cost-effective solution

Flexible vehicle antenna solution

3042 HF ANTENNA TUNER

Low profile 125 W antenna tuning unit

3061/3062 HIGH POWER AMPLIFIERS

Highly efficient, continuous duty power amplifier

CODAN RADIO COMMUNICATIONS

Codan Radio Communications is a leading designer and manufacturer of premium communications equipment for High Frequency (HF) and Land Mobile Radio (LMR) applications. We've built our reputation for reliability over 50 years in radio communications, in some of the toughest conditions on the planet.

Trusted by the world's largest mission critical security, military and humanitarian agencies, we relentlessly focus on high reliability, meaning you can count on us to not let you down.

We believe having the right equipment is only ever half of the story; having support if you need it is just as important. And that's why we have over 300 distribution and support centres around the world backed by Codan's specialist field team of deployable engineers — meaning when we say, "Anywhere, Anytime" you know we actually mean it.

From aid workers fighting famine to peacekeepers rebuilding lives, people all over the world count on Codan for communication.
